

Property and Business Valuation

Newsec was founded in 1994 in Sweden and now encompasses total of 7 markets in the Nordic and Baltic countries. Newsec – the Full Service Property House in Northern Europe – began its activities in the Baltics in 2003 and currently operates on the Lithuanian, Latvian and Estonian markets with 5 offices.

Newsec among other services is a licensed provider of valuation services for real estate, movable property, and businesses across the Baltics. Our valuation team has more than 20 years of experience, high level of expertise and strict professional standards, and always delivers your sound valuations by agreed deadlines.

Newsec appraisers have locally required professional qualification and valuations can also be prepared according to internationally recognized RICS standards. Our company's valuation related activities are certified and insured. Newsec also offers a wide range of market reports, many of them precisely tailored to the specific client need.
